SAGE Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Managing and Measuring Social Enterprises, Rob Paton, 'Its emphasis on performance measurement affords rare insights into some innovative techniques. Moreover, institutional and other theories are deployed to explore the reasons for innovation. The book should be a prized resource for postgraduate students who seek a deeper understanding of social enterprise measurement and management practices. It covers extremely and topical issues, while the case studies offer a perspective on the complexities of real social enterprises' - Prometheus 'Recent years have seen the voluntary and social enterprise sectors embark on a tentative love affair with performance measurement. We should, it seems, be measuring, monitoring and reporting our performance for a variety of reasons - accountability, continuous improvement and self-motivation, to name a few. But has anyone stopped to consider the realities if implementing the range of tools on the market? Managing and Measuring Social Enterprises looks critically at a range of performance measurements and improvement methods, including: * Outcome measurement * Using financial ratios for performance comparison * Social audit * Process benchmarking * Externally accredited standards (like 'Investors in People' and ISO 9000) * Diagnostic models and other tools from the quality movements * 'Balanced scorecards' Rob Paton offers a measured critique of the naive realism and rhetorical excesses of the performance management movement but also shows why many of its critics are unduly pessimistic. Through a combination of theory and research, the book provides practical guidance to the problem of performance management outside of the private sector. This is an essential text for those interested in public...
