Excerpt: .an evening in garden walks, or chalky commons, after a shower of rain, and put them with clean moss well washed and picked, and the water squeezed out of the moss as dry as you can, into an earthen pot or pipkin set dry, and change the moss fresh every three or four days, for three weeks or a month together; then your bait will be at the best, for it will be clear and lively. 2. Having thus prepared your baits, get your tackling ready and fitted for this sport. Take three long angling rods, and as many and more silk, or silk and hairlines, and as many large swan or goosequill floats. Then take a piece of lead, and fasten them to the low ends of your lines; then fasten your link-hook also to the lead, and let there be about a foot or ten inches between the lead and the hook; but be sure the lead be heavy enough to sink the float or quill a little under the water, and not the quill to bear up the lead, for the lead must lie on the ground. Note that your link next the hook may be smaller than the rest of your line, if you dare adventure, for fear of taking the pike or perch, who will assuredly visit your hooks, till they be taken out, as I will show you afterwards, before either carp or bream will come near to...
