Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1869 edition. Excerpt: .MATHEWS, New York City--Als0 exhibits an Apparatus for Manufacturing Soda, Mineral and ZErated Waters, with a Glass Fountain for the same--Schultz Walker, inventors. This is a most complete and perfect apparatus for making all the waters, and is of the capacity of three hundred gallons per day. The conducting tubes in all the apparatus manufactured by Mr. Mathews, are from pure Banca tin, and, we are informed, have been submitted to a test of three thousand pounds to the square inch without showing any signs of swelling or bursting. The design of the apparatus is such as to unite convenience with the greatest strength of which tpe materials are capable. The heads of the acid chamber, gas washers and necks, have cap flanges, a peculiarity which adds greatly to their strength. The generator, gas washer and reservoirs are constructed of the strongest iron and protected on the interior by seamless casings of pure tin, silver or porcelain fused upon them at a high heat. The purifying vessels contain white marble in small fragments, which causes the gas to be divided into numerous small bubbles, thus bringing a large surface of gas in contact with the water and neutralizing any small quantities of sulphuric acid which, by accident, pass over the generator. The judges are of the opinion that a more effectual washing of the gas is obtained by this apparatus, and that it is delivered in a state of great purity. Report of Special Committee...
