Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Stories spanning centuries of time - from the present to a stupefying future - these are the bizarro sci fi chronicles of instantaneous space travel. - End of Space - Fringe Traveler Incorporated is a small, decaying factory on the verge of bankruptcy. They make sensory deprivation tanks, a once trendy fad fast fading into obscurity. The owner, Garrett, discovers his hidden genius and builds a vehicle that can journey to the end of space - traveling faster and farther than anything before - by being absolutely motionless. He builds a homemade spaceship in his carport using a fringe-matrix-capacitor motor bought from his somewhat shady workmate, Jose. The spaceship works but Sam ends up crashing on a pleasant Caribbean style beach on a planet three parsecs from earth. Strangely, he finds Jose s decapitated body on the beach and Sam is mistakenly arrested for murder. Unknown to earth, a human colony already exists on this planet, SCB1, where very odd things are going on. There is much more than a murder charge for Sam to deal with on this world that suffers from a severe reality handicap. - Galaxy Riff - The Homeland Universe has been thoroughly explored. Humans comfortably populate many worlds.
