

Introducing Graphic guide- the Origins of Life

By Miller, Borin Van Loon, Dylan Evans, Howard Selina, Steve Jones

Icon Books Ltd. Paperback. Book Condition: new. BRAND NEW, Introducing Graphic guide- the Origins of Life, Miller, Borin Van Loon, Dylan Evans, Howard Selina, Steve Jones, Using comic-book style illustration combined with accessible but authoritative text, the Introducing Graphic Guide series is a uniquely brilliant way to get your head around some of humankind's most thrilling ideas. In 1859, Charles Darwin shocked the world with a radical theory - evolution by natural selection. One hundred and fifty years later, his theory still challenges some of our most precious beliefs. Introducing Evolution: A Graphic Guide, on 'Darwin's dangerous idea', takes a fresh look at the often misunderstood concepts of natural selection and the selfish gene. Introducing Darwin: A Graphic Guide the difficult progress from pre-Darwinian thinking to modern genetics, and the devastatingly important impact of one man on our fundamental understanding of biology, life and ourselves. Introducing Genetics: A Graphic Guide takes readers on a journey through this new science to the discovery of DNA and the heart of the human gene map. In everyday life, many of us increasingly have to make moral decisions where genetics plays a part. This Graphic Guide gives us the information to do so.

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
