Date :2011-06-01 version 1. Circuit theory and application (3rd Edition) (Tan learned author. Tony Department of static) a more systematic introduction to various types of integration circuit theory and applications. including: the basics of integrated operational amplifier. the linear application of analog integrated circuits. analog integrated circuits for nonlinear applications. integrated converter and its applications. integrated signal generator. integrated active filter devices. integrated power supply. voice and image integrated circuits. digital integrated circuits and applications. programmable logic devices and labs. Principle and Application of Integrated Circuits (3rd Edition) the basic characteristics of various types of integrated circuits. basic principles and analytical methods were clear and concise exposition. with each part of the theory with practice. books and journals from abroad many practical applications in the selection of the circuit. Problems with thinking after each chapter and exercises. Audience: This book is a general higher education Eleventh Five-Year national planning materials integrated circuit theory and applications (2nd edition). the second edition. This book is rich in content. practical. as colleges and universities of professional electrical and electronic information materials. but also as an electronic and electrical engineering class researchers and technical personnel of reference. Contents: Chapter 1 integrated operational amplifier basics 1.1 Basic components integrated circuit op amp differential input circuits 1.1.1 1.1.2 1.1.3 active constant current source circuit two-terminal variable load circuit 1.1.4 1.1 single-ended circuit .5 DC level shift circuit 1.2 1.1.6 complementary push-pull output circuit of the basic composition of integrated operational amplifier and said operational amplifier integrated symbol 1.2.1 1.2.2 universal basic composition of the internal operational amplifier integrated circuits 1.2.3 Introduction to Integrated Operational Amplifier representation of symbols...
