A question that sometimes drives me hazy: am I-or are the others crazy? -Albert Einstein For more than half his life, author Tim Nuske thought he was crazy. During a certain ten-year period and beyond, he could have fulfilled the diagnostic criteria for at least half of the close to 400 mental disorders described in psychiatry s billing bible, the DSM. Building on these experiences, Nuske presents a thought-provoking theory of the mind and how it relates to mental illness, a widespread social concern affecting countless millions. But are such experiences a real biological illness or brain disease? Are they caused by a chemical imbalance or genetic defect? And what does the mind have to do with a mental illness/disorder/disease? Following a life changing experience and spiritual awakening Tim entered university to study psychology, intent on gaining a better understanding of his own madness and the mind, and to help others with what he had learned. The Map of the Psyche: The Truth of Mental Illness is the result of four years of research and over...
