Reviews

A must buy book if you need to adding benefit. Better then never, though i am quite late in start reading this one. I am very happy to inform you that this is basically the very best book we have study during my own life and could be he finest ebook for possibly.
(Rodger Hane)

THE ADLARD COLES BOOK OF OUTBOARD MOTORS

Bloomsbury Publishing PLC, United Kingdom, 2012. Paperback. Book Condition: New. 3rd Revised edition. 244 x 166 mm. Language: English . Brand New Book. Aimed at boatowners rather than experienced mechanics, The Adlard Coles Book of Outboard Motors is a boon to anyone who puts to sea with an outboard engine. Covering both 2 and 4 stroke engines, the book explains how even the most sophisticated of modern outboards use simple processes to convert fuel to power, and then looks at each of the sub-systems that allow those processes to take place: - the fuel system - the ignition system - cooling and lubrication - the electrical system - transmission and controls The book includes sections on routine maintenance and fault finding, and even has a photo sequence showing the vital first aid required to save the life of an outboard engine that has been dropped overboard! Explains in clear, jargon-free English how an outboard works and how to look after it Kelvin Hughes An excellent book, well thought out and well written Motorboats Monthly.
