Two planetary scientists set out to explore a small desert planet which orbits a Red Dwarf star in an as of yet uncharted region of the Milky Way Galaxy and find that its not as dead of a world as they once believed. Buried under massive sand dunes that dot the planet from one side to the other, lay ancient alien artifacts that must be protected at all costs. Raine is a planetary geologist sent from Earth to map and study the small planets topography. She soon joins Jolin, a famous botanist and biologist whos duty is to study any indigenus life forms he discovers. Together they find the giant dunes of sand that cover the planet are far from ordinary. Ancient alien artifacts lay beneath the surface and its up to them to discover their purpose. This item ships from La Vergne,TN. Paperback.
